Biography

Hello my name is Mr. Alberto Gonzalez and I am one of the Fundamentals of Computer Science Teachers at South Texas ISD Preparatory Academy. I graduated from the University of Texas Pan American with a Bachelor's degree in Bachelors Business Administration in Computer Information Systems. Afterwards I received my Masters degree in M. ED Educational Technology from the University of Texas at Brownsville. I am certified in the following: Technology Applications EC-12, Business Education 6-12 and Special Education EC-12. I am the Chess Club Sponsor for our campus.

What I love about teaching is to see the excitement of students learning new concepts and apply it in every-day life. Even as a teacher I always learn new knowledge and concepts. It's great to not only teach my students but learn as well. If you have any questions please contact me. Thank You.
